Judge W. G. Blakely has gone to Prescott on legal business.

All the lodges will probably be installed in the new Elks Hall on the first of July.

Stewart Ver Mehr, son of Alfred Ver Mehr, arrived in Kingman yesterday morning and will spend the summer vacation here.

Sheriff Lovin came in this morning with a 16,000 \$ bar of bullion from the Gold Road mill, the result of five days run of the tanks.

Thomas Watchman of Chloride, has rented the Price Thompson house on Beale street, and will remove his family to this place to reside.

C. W. McKenzie died at the county hospital yesterday morning. The poor fellow had been a great sufferer. He was a native of Pittsburgh, Pa., but nothing is known of his relatives.

This morning sixteen Wallapai Indians were sent to Layne Springs to work on the road under construction from the Alpha mine to Mineral Sidling. This wagon road will be rushed to completion as fast as men can do the work.

C. R. Cooper is home again from Prescott, where he attended the territorial convention of the socialist party. Eugene Godat, of McCabe, was chosen as the candidate of the party for delegate to congress.

Mr. and Mrs. William Sweeney and Miss Josie E. hom desire through the medium of this paper to thank the many good people of Kingman for their generous help in saving their feet from the fire that destroyed their home on the morning of June 4th.

The weather the past few days has been intensely warm, although the thermometer has registered only about 95 degrees in the shade. The lack of moisture in the ground is being severely felt and if it does not rain soon not a particle of vegetation will be left on the hills and valleys.

Miss S. H. Finley, principal of the Kingman public school during the past term, departed for her home in Santa Ana last Monday evening. Miss Finley has taught this school several terms and during the past three years has made many warm friends, who would be pleased to have her again with us during the next school year.

David Hutton, who has a ranch on the west side of the Colorado river, near Cottonwood Island, is irrigating many acres by water wheels of his own invention. The wheels are set on trucks and are run into the current of the river on tracks. The wheels have bucket attachments that raise the water high enough to discharge into a flume, from which it is carried in ditches over the farm. All the produce that can be raised on this ranch is readily sold at Seachlight.

Undertaker Emerson was asked by wire last Tuesday evening to have a coffin at the depot on the arrival of No. 1. It appears that a young man by the name of Wilkinson, of Rochester, Wis., was hurrying to Tropic, Cal., where his mother was very ill, when he was stricken with heart failure on the train at Pineveta, a station near Ash Fork, and expired in a few minutes. The body was placed in the coffin and shipped to the home of the parents at Tropic. The mother was so ill that the news of the death of the son was kept from her.

Louis Robertson, who was charged with causing the fire that destroyed the Harrington House and the Quinones residence, has been adjudged insane and taken to the asylum at Phoenix. From what we can learn of the case Robertson set fire to the hospital to vent his spleen on one of the inmates and when he saw what he had done made use of the insane dodge to evade punishment. He had been a disturbing element in the hospital and considerable complaint was made by Mrs. Sweeney and by the inmates of the place.

The Emporium carries a full line of notions of every description. Call and examine their stock before buying elsewhere.

**Fire Protection Necessary.**

Kingman has long been in need of some sort of fire protection, but the people who should take the greater interest in the subject appear to be apathetic. Two disastrous fires have swept the town, but the citizens appear to take the ravages of the red demon as a matter of course. Now, the fact is that these fires might have been quenched in their incipency had there been a hook and ladder company with full equipment in the town, or had there been a small chemical engine with which to combat the flames. Last week another fire ravaged part of the town, destroying two of the handsomest places on the whole line of the Santa Fe railroad, and yet this does not disturb the placid serenity of the people. A few hundred dollars should be invested in hooks and ladders, anyway, and then those who feel like suppressing a fire might at least have half a chance to do the work.

**Ayres-Schneider Wedding.**

Miss Mabel Ayres, daughter of Mr. and Mrs. T. L. Ayres, and Morris Schneider, a young business man of San Francisco, were married last Monday evening at the Palace Hotel. Rabbi W. F. Levy performing the ceremony. Miss Ayres is known to nearly all the people of this county, having lived in Cerbat practically all her life, and to them her many amiable qualities have endeared her. May her path through life be rose strewn.

The Russell ranch, near Cottonwood Island, is being irrigated with large irrigating pumps. So far this year a considerable acreage has been planted and it is proposed that year by year a greater amount of land will be reclaimed. During the past month the pumps bucked considerably, which came near resulting in the ruin of the growing crops. The ranch covers one of the prettiest pieces of land on the Colorado river.

Lew Blakely and wife were Kingman visitors yesterday. Mr. Blakely has been leasing on the Ramrod mine for several months past with considerable success. It is his intention to return to the mines and get out a large mill run. The ore carries splendid values in gold and some silver.

The Ben Harrison and Tom Reed mining claims, three miles southwest of Gold Road, have been bonded to the Blue Ridge Gold mining company. The terms of the bond have not been learned, but it is stated that the company is to begin work on the property at once.

The Gold Road company shipped a 20,000 \$ bar of bullion to the mint last Saturday night. This bar was the result of ten days run. It is expected to increase the size of the bars each week on account of the installation of the new amalgamators at the mill, which makes a closer saving of values.

The MINER is authorized to state that F. W. Morrison has been appointed deputy District Attorney to act only during the absence of District Attorney Dickson.

T. C. Howell, field editor of Pick & Drill, a San Francisco mining publication, is in the Chloride country getting data for a write up of that section for his paper.

The Golden Horn mining company is working a force of men on its mines in the Union Pass country.

Mr. and Mrs. F. W. Morrison have leased the Starkey residence and have already taken possession.

Alfred I. Conkey, the young merchant of Chloride, was in Kingman last Saturday and Sunday.

W. E. Frost, of Wallapai Springs, has been in Kingman several days this week.

Fred Stull, superintendent of the Lucky Boy mine, is visiting Kingman.

We carry a full line of overalls, men and children's. The Emporium.

W. B. Stephens, a big cattleman of the Big Sandy, was in Kingman yesterday.

Albert J. Eller, of Fort Mohave, has been appointed a notary public by Gov. Brodie.

C. E. Sherman, a Mineral Park miner, was in Kingman yesterday, on his way home after a business trip to Los Angeles.

William McGee took out a four horse team load of supplies for the New Ulm mining company yesterday. This company is operating on the Big Sandy, in the Aquarius mountains.

Charles Connolly, formerly postmaster at Chloride, was in Kingman several days this week, departing for California last Thursday evening. He will probably make his home in the Golden State.

Osborne & Wardwell, who recently purchased a group of mines on the Colorado river, near the old Billy Mack property, are working a force of men and are getting good results. The mines are said to be among the best properties in that section.

The Suncloud mine and mill has been attached by a local mercantile company. It is thought that the matter will be adjusted within a short time. The mine was under the management of Mr. Kennan, who is now operating over in Yavapai county.

C. W. French, who with his wife resided in Kingman several months a year ago, is now the manager of the Cerro Prieta mines, in the Magdalena district of Sonora, Mexico. Mr. French made the sale of this property to an eastern mining company and has made a success of its management.

The government is to construct a large building at Fort Mohave for the use of the Herbert Welsh Institute. The brick will be made at the Fort and 300 tons of lumber and other materials are to be hauled up the river from Needles. The building will be one of the handsomest of the many buildings at that place.

The handsome yacht Detroit, which is to defend the Lipton challenge cup at the August yacht races, in San Diego bay, next August, passed through Kingman a few days ago on one of the longest cars ever run over the Santa Fe. The boat was in excellent condition and it was expected to deliver it at the Bay City in splendid shape.

Messrs. Sauls, Leach and Ayres visited the Union Pass country Wednesday last and report that work on the Smith property is progressing nicely. The ore being taken from the mine shows much free gold. Mr. Sauls, who is an owner in the property, is well pleased with the outlook, believing that he has one of the richest properties in that country.

Dr. J. P. Wallace came up from the Barro mine a few days ago and returned Thursday morning with a large load of supplies. He reports that he has a force of six men at work on the mine and that splendid headway is being made in the cross drift. This drift is now in 175 feet and is being driven ahead at the rate of about seven feet per day. At this rate the vein will be cut inside of two months.

**Acute Rheumatism.**

Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Oleson, Gibson City, Illinois, writes Feb. 16, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." 25c, 50c, 1.00. For sale by H. H. Watkins.

For all kinds of summer dress goods see the Emporium. New goods are received every few days.

**Notice to Voters.**

Notice is hereby given that at a regular meeting of the Board of Supervisors of Mohave County, Arizona Territory, held at their office on the 8th day of April, 1904, it was ordered that a re-registration of all voters of Mohave County, be made. Registration opens July 20th, 1904, and closes October 17, 1904, at midnight.

JNO. P. FEENEY,

Clerk of the Board of Supervisors of Mohave County.

Dated June 9th, 1904.

First insertion June 11th, 1904.

Last Tuesday evening a miner named Thomas L. Raley was run over and killed by a west bound train on the Santa Fe, near Haviland. It appears that Raley and James Cogan had mining interests near Haviland and started for that place on the local. Raley got off at Yucca and indulged freely in drink. He later boarded a light engine and somewhere near Haviland fell from the engine and a train following ran over and mangled him into an unrecognizable mass. His remains were taken to Yucca, where Sheriff Lovin made an investigation of the affair Wednesday morning. Raley came here some time ago from Leadville and worked in the mines of this district. He is said to have been a good miner and was liked by his fellow workmen.

F. B. Austin, the well known Tombstone merchant, has invented a safety device for mining hoists that promises to be much in demand wherever mining hoists are used. The device is a simple and practical mechanism for preventing overwinding of cable. By the unique safety device of Mr. Austin's the cage is automatically controlled as soon as it reaches the danger point and without possibility of much or any damage to cage or frame prevent a serious collision which other wise means death should occupants be on cage. The appliance can be added to any frame in use where cages are run and thus be universally adopted. Mr. Austin is having his invention patented.—Tombstone Prospector.

The extensive estate of the Yavapai Copper company, which adjoins the property of the Yaeger Canyon Copper company, in the Black Hills, was Saturday sold at sheriff's sale, and bid in by Hon. W. F. P. Fogg, of Springfield Mass., in behalf of certain judgment creditors. This is a valuable property on which a good deal of money has been expended in development, roads and building, is heavily wooded and has an abundant water supply. Prescott will be glad of the new owners will resume active operations and develop the great mine there which is undoubtedly possible.—Journal Miner.

List of letters remaining in the post office for the week ending Thursday: Adolph Samlar, C. F. Johnston, George Lopez, Chas. Carte, Frank A. Barkalow, Pat Driscoll 11.

**Cures Old Sores.**

Westmoreland, Kans., May 5, 1902: Ballard Snow Liniment Co.: Your Snow Liniment cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment, until I tried Snow Liniment, which did the work in short order. My sister, Mrs. Sophia J. Carson, Allensville, Mifflin Co., Pa., has a sore and mistrusts that it is a cancer. Please send her a 50c bottle. For sale by H. H. Watkins.

Until June 20th I will make Cabinet Photos—full figure—on plain gray or white cards, for 25 a dozen. Gallery will be open Mondays, Wednesdays and Fridays. J. A. TARR.

The Emporium has a complete line of ladies' and children's underwear at the lowest prices.

**GILBERT'S DRAY**

No. 552.

Territory of Arizona, at the relation and to the use of Foster S. Dennis, Treasurer and Ex-Officio Tax Collector of Mohave County, Plaintiff,

vs.

Jennie Gideon, formerly Mrs. J. P. Gideon, Defendant.

By virtue of an execution issued out of the District Court, of the Fourth Judicial District, Territory of Arizona, in and for the County of Mohave, wherein the Territory of Arizona, at the relation and to the use of Foster S. Dennis, Treasurer and Ex-Officio Tax Collector of Mohave County, is plaintiff, and Jennie Gideon, formerly Mrs. J. P. Gideon is defendant, upon a judgment rendered the 9th day of April, 1904, for the sum of Fifty-nine and 85-100 (\$59.85) Dollars, United States gold coin, besides cost and interest, I have this day levied upon all the right, title, claim and interest of said defendant, Jennie Gideon, formerly Mrs. J. P. Gideon, of, in and to the following described real estate to-wit:

All that certain premises known as lots thirty-one (31), thirty-three (33) and thirty-five (35), in block ten (10), Kingman townsite, Kingman, Mohave County, Territory of Arizona.

Public notice is hereby given that I will on Monday, the 13th day of June, 1904, at 2:30 o'clock p. m., of said day, in front of the Court House door of the County of Mohave, sell at public auction for United States gold coin, all the right, title claim and interest of said defendant, Jennie Gideon, formerly Mrs. J. P. Gideon, of, in and to the above described property, or so much thereof as may be necessary to raise sufficient to satisfy said judgment, with interest and costs, etc., to the highest and best bidder. HENRY LOVIN, Sheriff.

By WALTER BROWN,

Under Sheriff.

Dated at Kingman this 6th day of April, 1904.  
 First insertion May 21, 1904  
 Last insertion June 11.
